General Terms and Conditions

Terms and Conditions

Terms of sale—Prices shown herein are extended to Kodak's direct customers for Motion Picture Films, chemicals and other motion picture related products for professional use. Unless otherwise indicated, these prices are FOB point of shipment and are subject to change without notice. No adjustments will be made because of price changes. All orders, in whole or in part, are subject to acceptance by Eastman Kodak Company or one of its wholly-owned subsidiaries at one of its respective Regional Distribution Centers or designated shipping points.

Trademarks, Trade Names, and Trade Dress—All sales are made with the understanding that Kodak trademarks, trade names, trade dress, and original packaging will not be altered or misused.

General Conditions—If, at any time, it becomes necessary to discontinue shipments to any of our customers, to revoke or modify any provisions in this catalog, or to allocate distribution of any of our products, we will take whatever action in our judgment is fair and appropriate. The terms and conditions of this catalog shall govern despite additional or inconsistent terms or conditions included in customers' purchase orders or other documents.

Equipment—All equipment is sold only with the warranty that is expressly stated on, packaged with or accompanying the equipment. Upon customer request, Kodak will provide a copy of any warranty applicable to the equipment listed in this catalog.

Terms of Payment—Unless otherwise specified, payment terms shall be 2%, 15 Net 30 DOI for all orders of items listed in this catalog. Provided the customer does not have an account with Kodak or its subsidiaries which is past due, the 2 percent cash discount allowance is based on the net amount of the invoice ("invoice total") and will be given for payment of invoices received by Kodak on or before the 15th day after the date of invoice. However, there will be no 2% cash discount if payment is made via credit card. Subject to Kodak Credit Department approval, credit card payments via VISA, Mastercard and American Express may be accepted, although additional service fees may apply. If not discounted, invoices are due for payment on a net basis within 30 days after the date of invoice. No additional discounts or charge backs are allowed for early payment anticipation. All remittances should be made to the address as shown on the invoice or as indicated by our Regional Credit Office.

Billing Discrepancies—Any errors in billing must be reported to our Credit Department within 12 months of the original invoice date. Claims and/or deductions taken for billing discrepancies after 12 months from the original date of invoice will not be investigated or honored.

Taxes—Please note that sales, use, or other taxes measured by sales or receipts are not included in the prices shown. Where applicable, such taxes will be billed if a valid exemption certificate is not furnished.

Where a valid exemption certificate is furnished, tax will not be billed unless we can determine that the purchase will be used in a taxable manner. Omission of tax should not be construed as a basis for exemption. If used in a taxable manner and no tax was billed by Kodak, the customer is required to remit applicable taxes directly to the taxing authorities.

Transportation Prepayment Plan—Transportation costs will be paid by Kodak on all orders having a billing value of \$1,000 or more excluding tax, and calling for single shipments to domestic U.S. addresses from Kodak Regional Distribution Centers or designated shipping points, to be delivered within 5 business days after day of order placement, using Kodak's preferred carrier.

This prepaid transportation plan applies only to regular photographic merchandise, except special photographic goods which are listed in this catalog as available only from Rochester. Also exempt from this plan are those items that require special handling and orders on which the customer requests a method of shipment other than that which would normally be used.

Shipment Discrepancies—Any errors in shipment must be reported immediately upon receipt to the Kodak Regional Distribution Center that services you. Requests for adjustments on concealed shortages involving cartons received intact must be reported to the Kodak Regional Distribution Center within 15 days of receipt of the shipment.

Proof of Delivery Requests—Request for Proof of Delivery (POD) must be made within nine months of the original invoice date. Claims for lost freight cannot be asserted after nine months from the original date of invoice. Requests received after nine months from the original invoice date will not be investigated or honored.

Film Return Policy—Allowance of a return is at Kodak's sole discretion. A return will be accepted only after prior authorization by Kodak and subject to compliance with the following terms and conditions:

Returns must be made within 30 days of purchase. A 15% restocking and handling fee applies. Total returns are not to exceed 10% of the total volume purchased per project. Only unmarked, undamaged, factory sealed products of current emulsions will be accepted. A Kodak sales representative will provide the appropriate return address and preferred carrier(s). Product for return must be stored and shipped under recommended conditions. All returns must be shipped prepaid (unless otherwise specified by Kodak) in original packaging. Kodak will provide company packaging as needed for return shipments.

Variation in Film Quantity—It is necessary from a manufacturing standpoint that we reserve the right to furnish, in some instances, shorter length rolls than the standard sales length. Short length rolls will be supplied only for those items priced per foot. Items priced per roll will be supplied in standard sales lengths. Short length rolls will be billed accordingly on a footage basis and, in addition, a quantity variation of plus or minus 10 percent from the footage ordered will apply. A minus 10 percent quantity variation will also apply to all nonfactory stocked films whether priced per roll or per foot (FTO, Finish-to-Order Items).

General Terms and Conditions—Continued

Limitations of Liability / Ordering Instructions

Limitations of Liability on Sensitized Goods

The sale, use, and handling of Kodak sensitized goods are subject to the applicable limitation of liability listed below:

Film—Kodak films will be replaced if defective in manufacture, labeling, or packaging, or if damaged or lost by us or any Kodak subsidiary company. Except for such replacement, the sale, or other handling of these films is without warranty or liability, even though defect, damage, or loss is caused by negligence or other fault. Since color dyes may in time change, color films will not be replaced for, or otherwise warranted against, any change in color.

Limitations of Liability on all other Products

The sale, license, use and handling of all other Kodak products are subject to the applicable limitation of liability listed below:

Other Products (excluding Sensitized Goods)—All Kodak motion picture related chemicals or products (including software and equipment), other than sensitized goods, will be replaced if defective in manufacture, labeling or packaging, or if damaged or lost by us or any Kodak subsidiary company. Chemicals may discolor and stability cannot be guaranteed if stored / used beyond the expiration date printed on the packaging. Kodak is not responsible for replacement of expired chemicals. Except for such replacement or re-performance, the sale, license, use or other handling of these chemicals, products is without warranty or liability, even if defect, damage or loss is caused by negligence or other fault.

Disclaimer of Warranty and Damages; Remedies

Except for any warranties expressly provided in this catalog, all other warranties expressed or implied are disclaimed, including the IMPLIED WARRANTY OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSE. Under no circumstances will Kodak be liable for indirect, incidental, consequential, or special damages, even if advised of the possibility of such damages. Kodak's entire liability and customer's sole remedy for defective film, chemicals or other products will be the repair, replacement or re-performance, as the case may be, of the purchased item. Kodak's maximum liability for damages related to any purchase under this catalog will not exceed the purchase price paid by customer for the goods.

Transactional Emails

Kodak may send email communications related to orders placed by the customer. Customer agrees that all such email communications from Kodak to customer or its employees are transactional or relationship messages within the meaning of the United States CAN-SPAM Act of 2003.

Ordering Instructions

1. To facilitate prompt handling, be sure "Entertainment Imaging" is included in the address and only items in this price schedule are included in your order.
2. When ordering, be sure to indicate CAT No. and product description.

Example: For goods priced per roll, a typical order would read:

CAT No. 845 2062, 50 rolls 16 mm KODAK VISION3 500T Color Negative Film 7219, camera spool, perforated one edge, B wind, 100 ft, SP455

Generally, all 16 mm Intermediate and Print Films are packaged 2 rolls per can. Minimum orders should be for 2 rolls or multiples thereof.

3. The perforation type and pitch information shown after each item is the one that will be supplied unless otherwise specified. In general, all variations not listed are either not available, or are available on a special order basis. For additional technical information, telephone or write to the nearest Entertainment Imaging office (listed on page 13). Unless otherwise indicated, it is our intention to maintain a factory stock of all of the films listed herein.
4. Non-factory stocked items will be supplied in accordance with our standard practices and also will be subject to minimum-order quantities and delay in delivery. To determine availability, requests should be directed to the nearest Entertainment Imaging office (see pages 2 and 13).
5. On 16 mm films perforated one edge, and certain 35 mm films, be sure to specify the winding designation. This determines which edge contains the perforations. The type of equipment upon which the film is to be used dictates the winding required. For a description of A or B windings, see page 7.
6. Clearly indicate any special transportation instruction (see Transportation on page 5). Otherwise, normal surface transportation will apply.

Running Time / Length Conversion Table										
	Super 8				16mm		35mm		65mm	
Length (feet & meters)	18 FPS	24 FPS	25 FPS	36 FPS	24 FPS	25 FPS	24 FPS	25 FPS	24 FPS	25 FPS
	Running Time in Minutes / Seconds									
50ft / 15.24 meters	3m 20s	2m 30s	2m 24s	1m 40s	-	-	-	-	-	-
100ft / 30.48 meters	-	-	-	-	2m 46s	2m 40s	-	-	-	-
200ft / 60.96 meters	-	-	-	-	-	-	2m 13s	2m 8s	-	-
400ft / 121.92 meters	-	-	-	-	11m 6s	10m 40s	4m 26s	4m 16s	3m 33s	3m 24s
500ft / 152.4 meters	-	-	-	-	-	-	-	-	4m 26s	4m 16s
1000ft / 304.08 meters	-	-	-	-	-	-	11m 6s	10m 40s	8m 53s	8m 32s
Super 8 @ 18 FPS = 15 ft/min							16mm @ 25 FPS = 37.5 ft/min			
Super 8 @ 24 FPS = 20 ft/min							35mm @ 24 FPS = 90 ft/min			
Super 8 @ 25 FPS = 20.8 ft/min							35mm @ 25 FPS = 93.8 ft/min			
Super 8 @ 36 FPS = 30 ft/min							65mm @ 24 FPS = 112.7 ft/min			
16mm @ 24 FPS = 36 ft/min							65mm @ 25 FPS = 117.6 ft/min			
NOTE: The calculated times in the chart above should be used as reference only.										
Your actual time may be slightly different.										

General Terms and Conditions—Continued

Winding Designations / Exposure Index / Perforation Types

Winding Designations—A plastic core is normally used with all 16 mm films in lengths over 200 feet and with all 35 mm films in lengths over 100 feet. Camera spools are normally supplied with 16 mm x 100 ft rolls.

It is necessary to designate the desired winding for 16 mm film perforated one edge and for 35 mm film with 16 mm and 8 mm perforations. Proper choice of winding depends on the equipment upon which the film is to be used. The following sketches illustrate the various windings:

16 mm Winding A

16 mm Winding B

In the above sketches the film is wound on cores. When the roll is held so that the outside leader or head end of the film leaves the roll at the top and toward the right, Winding A has the perforations along the edge of the film toward the observer and Winding B has the perforations along the edge away from the observer.

Exposure Index—Where applicable, the exposure index is shown for both daylight and tungsten light exposure.

Perforation Types

35 mm and 65 mm End Use

1. BH-1870. 35 mm Bell-Howell film negative perforations with a pitch measurement of 0.1870" (long pitch) [SMPTE 93-2005]
2. BH-1866. 35 mm Bell-Howell film negative perforations with a pitch measurement of 0.1866" (short pitch) [SMPTE 93-2005]
3. KS-1870. 35 mm and 65 mm Kodak Standard positive perforations with a pitch measurement of 0.1870" (long pitch) [SMPTE 145-2004; SMPTE 139-2003]
4. KS-1866. 35 mm and 65 mm Kodak Standard positive perforations with a pitch measurement of 0.1866" (short pitch) [SMPTE 145-2004; SMPTE 139-2003]
5. DH-1870. 35 mm Dubray-Howell film perforations with a pitch measurement of 0.1870" (long pitch) [SMPTE 237-2003]
6. KS-1870. 70 mm film perforated 65 mm Kodak Standard positive perforations with a pitch measurement of 0.1870" (long pitch) [SMPTE 119-2004]

16 mm End Use

7. 2R-2994. 16 mm film perforated two edges with a perforation pitch of 0.2994" (short pitch) [SMPTE 109-2003]
8. 2R-3000. 16 mm film perforated two edges with a perforation pitch of 0.3000" (long pitch) [SMPTE 109-2003]
9. 1R-2994. 16 mm film perforated one edge with a perforation pitch of 0.2994" (short pitch) [SMPTE 109-2003]
10. 3R-2994. 35 mm film perforated 16 mm with a perforation pitch of 0.2994" (short pitch) [SMPTE 171-2001]
11. 1R-3000. 16 mm film perforated one edge with a perforation pitch of 0.3000" (long pitch) [SMPTE 109-2003]
12. 3R-3000. 35 mm film perforated 16 mm with a perforation pitch of 0.2994" (long pitch) [SMPTE 171-2001]

Super 8 and 8 mm End Use

13. 2R-1500. 16 mm film perforated two edges with perforation pitch of 0.1500" [SMPTE 239-2004]
14. 1R-1667. 8 mm film perforated super 8 one edge with a perforation pitch of 0.1667" (long pitch) [SMPTE 149-2004]
15. 2R-1664 (1-4). 16 mm film perforated super 8 two edges in the 1-4 position with a perforation pitch of 0.1664" (short pitch) [SMPTE 168-2001]
16. 2R-1664 (1-3). 16 mm film perforated super 8 two edges in the 1-3 position with a perforation pitch of 0.1664" (short pitch) [SMPTE 151-2004]
17. 2R-1664. 35 mm film perforated super 8 two edges in the 1-0 position with a perforation pitch of 0.1664" (short pitch) [SMPTE 169-2002]
18. 5R-1667. 35 mm film perforated super 8 in the 1-3-5-7-0 position with a perforation pitch of 0.1667" (long pitch) [SMPTE 165-1999_archive]

Note: For other perforation types of formats, consult your Entertainment Imaging office.

General Terms and Conditions—Continued

Placing an Order

Monday - Friday, 8:00 am to 5:00 pm Eastern Time

Call Kodak Customer Service (800) 621-FILM (3456)

Fax Orders: (800) 648-9805

Please have the following information available:

1. The CAT Nos. of the items you want to purchase if you are placing your order by telephone.
2. The number of rolls or footage you want to purchase.

Ordering Quantities—For faster service and easier handling, case-lot quantities should be ordered whenever possible.

Film Width	Film Type	Roll Length	Case Quantity	Approx Case Weight
70 mm Print Films	Color	2000 ft	2	49 lb
		2500 ft	2	54 lb

Film sizes

PERFORATIONS

Bell & Howell - "Negative" perforation used on most camera negative films. Evolved from early round perforations.

Kodak Standard - "Positive" perforation. Large size, rounded corners are used for extra strength. Used primarily for release prints.

16 mm perforations - are the same size and shape for all film types.

"G" - is a measure of how straight the perforations are in line with each other.

Dimension	(N) Bell & Howell		(P) Kodak Standard		16 Millimeter	
	Inches	mm	Inches	mm	Inches	mm
C	0.110	2.794	0.110	2.794	0.072	1.829
D	0.073	1.854	0.078	1.981	0.050	1.270
G	0.001	0.03	0.001	0.03	0.001	0.250
H	0.082	2.08				
R			0.020	0.510	0.010	0.250

SPOOLS

R-90—16 mm
3.615-in. (92 mm) OD metal camera spool. Square hole with single keyway in both flanges. Center hole aligned on both flanges. For 100-ft. (30 m) 16 mm film loads.

S-83—35 mm
3.62-in. (93 mm) OD metal camera spool. Square hole with single keyway in both flanges. Center hole aligned on both flanges. For 100- and 150-ft. (30 m and 46 m) film loads.

CORES

Type P Core—65 mm
3-in. (76 mm) OD plastic core. Used for various film lengths and codes.

Type Y and EE Cores—35 mm
3-in. (76 mm) OD plastic core. Used for various film lengths and codes.

Type U Core—35 mm
2-in. (51 mm) OD plastic core. Used with various film lengths and codes.

Type T Core—16 mm
2-in. (51 mm) OD, 1-in. (25.4 mm) ID plastic core. Used with most 16 mm.

Type Z Core—16 mm
3-in. (76 mm) OD plastic core. Used with camera and print films in rolls longer than 400 ft. (122 m)

WINDINGS

16 mm Winding A
Emulsion side in. Used for contact printing, in some sound recorders and A-MINIMA cameras.

16 mm Winding B
Emulsion side in. Used for camera film, Super 16 camera film, optical prints, and on bidirectional printers.

KODAK VISION3 500T Color Negative Film 5219 / 7219

VISION3 500T Film gives you more control and flexibility at every phase of the filmmaking process in both digital and traditional workflows. Kodak's proprietary, advanced Dye Layering Technology (DLT) gives noticeably reduced grain in shadows so you can push the boundaries of exposure further and get excellent results. In addition, when scanning low-light scenes, VISION3 500T Film yields higher signal-to-noise ratios for unprecedented image quality. Extended highlight latitude gives you greater flexibility when lighting extreme situations, and lets you pull even more detail out of highlights.

KODAK VISION3 250D Color Negative Film 5207 / 7207

This film offers outstanding performance in the extremes of exposure, including increased highlight latitude, so you can move faster on the set and pull more detail out of the highlights in post. You'll also see reduced grain in shadows, so you can push the boundaries of underexposure and still get outstanding results. It also works seamlessly in digital post, so you can employ a workflow that combines the best of both worlds for exceptional efficiency and image quality. EI 250 (Daylight), EI 64 with 80A Filter (Tungsten).

KODAK VISION3 200T Color Negative Film 5213 / 7213

KODAK VISION3 Color Negative Film 5213/7213 is a 200 speed, tungsten balanced film that performs superbly in both controlled interiors and in challenging high-contrast exteriors. It features increased highlight latitude, so you can move faster on the set and pull more detail out of highlights. You will see reduced grain in shadows so you can push the boundaries of under-exposure and still get outstanding results. 5213/7213 delivers the image structure of a 100 speed film with the versatility of a 200 speed product - offering you the benefits of two films in one. The product was designed to work seamlessly in digital post, so you can employ a workflow that combines the best of both worlds for exceptional efficiency and image quality.

KODAK VISION3 50D Color Negative Film 5203 / 7203

KODAK VISION3 50D Color Negative Film 5203/7203 is a low speed daylight-balanced addition to the VISION3 Film portfolio offering the world's finest grain to ensure a pristine, clean image that is full of color and detail. Like other films in the VISION3 Film family, VISION3 50D Film features unrivaled highlight latitude, flexibility in postproduction, and proven archival stability. The expanded dynamic range allows for increased creative control in the extremes of exposure, especially high contrast daylight exteriors. Advances in grain and sharpness along with increased exposure latitude also make this film ideal for recorder output.

KODAK VISION3 Color Digital Intermediate Film 2254

KODAK VISION3 Color Digital Intermediate (DI) Film 5254/2254 is optimized to work with digital hybrid postproduction workflows, potentially offering faster recording speeds and extended density range. The imaging characteristics are designed to enhance the speed and efficiency of digital intermediate postproduction while rendering noticeably sharper images which faithfully represent the intentions of filmmakers.

Sound Recording Films

Product Name	CAT No.	Min Order Qty	Net Unit Price Qty	List Per Sales Unit	Effective List Date
--------------	---------	---------------------	--------------------------	------------------------	------------------------

KODAK Panchromatic Sound Recording Film 2374

A process-surviving antistat incorporated in the gray ESTAR base reduces the propensity for dirt and static marks in printing. This, and scratch resistant base and emulsion surface coatings, improve the film's durability offering opportunities for increased yields in labs. Enhanced acutance and sharpness of the film yields excellent signal to noise performance, high frequency response and sound quality in both digital and analog tracks.

KODAK Panchromatic Sound Recording Film 2374 (ESTAR Gray Base)

KODAK Panchromatic Sound Recording Film 2374 / E / SP683 / ESTAR Gray Base / 35 mm x 2180 ft roll / On Core / KS-1866
1961473 1 1+ \$514.37 01/05/2015

EASTMAN EXR Sound Recording Film 2378 / 3378

This black-and-white film, also on gray ESTAR base with process surviving antistat is orthochromatically sensitized to accept both analog and digital sound. Its high speed and contrast provide exceptional recording latitude. Designed for the familiar D-97 process, this film's D-min (base + fog) has minimal sensitivity to process variations, and the constant low D-min makes it easy to use in a standard printer setup.

EASTMAN EXR Sound Recording Film 2378 (ESTAR Base)
