Introducing NEW KODAK White Acetate Leader replaces KODAK White Opaque Acetate Leader

KODAK is pleased to announce the new KODAK White Acetate Leader. Featuring clear acetate support with white opaque coating, built in conductivity to reduce dirt attraction, front to back color difference, and writable on front side.

Please Note – for cement splicing, opaque coating on front side, like emulsion, will need to be scraped off.

The discontinued catalog numbers will be removed from both the KODAK Motion Picture Products Price Catalog and the KODAK Motion Picture Products Price Catalog for Canada. The discontinued products and new replacement products are listed below.

Some remaining stock of the discontinued products will be sold until inventory is depleted and will be available at the previous pricing.

Old Discontinued CAT No.	NEW Replacement CAT No.	Product Description	Min Order Qty	Net Unit Price Qty	US List Per Sales Unit	CAD List Per Sales Unit
KODAK White Acetate Leader
